EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Irah H. Donner on 05/26/2005.

The application has been amended as follows:

Non-elected claims 82-91, according to the Restriction Requirement below, have been canceled per Applicant's acknowledgement.

Claims 28-39 are allowable over the prior art of record.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 28-31, drawn to a method for filling at least one order with the combination of consolidating at least one bottle containing pills individually counted according to the order and a package that is not pre-designated for the order, classified in class 700, subclass 216.
- II. Claims 82-91, drawn to a method of combining at least one literature pack on a first transport mechanism to a consolidated order, classified in class 53, subclass 473.

The inventions are distinct, each from the other because of the following reasons:

3. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as for filling an order without the insertion of the literature pack. See MPEP § 806.05(d).

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

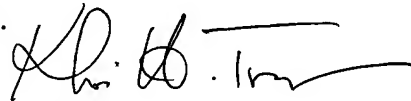

5. During a telephone conversation with Mr. Irah H. Donner on 05/26/2005 a provisional election was made without traverse to prosecute the invention of Group I, claims 28-31.

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Khoi H Tran whose telephone number is (571) 272-6919. The examiner can normally be reached on Monday-Thursday.
